HANDMAID OF LITERATURE.

Prof. William Herbert Hobbs, in Forum.

may be looked upon as marking a distinct

advance in the field of illustration. A still

higher plane should be reached when it is

possible to unite in one person the talents

of both. Such a combination, it might be

expected, would be but rarely met with;

yet there has recently come into notice

such a truly remarkable group of illustra-

tor-authors as to make the latest decade

of the Victorian era a somewhat unique

one in the history of literature. The best

known of the "society" artists of England,

span of life, flashes across the literary

both by pen and pencil, takes his position

in the front rank of contemporary writers

of fiction. On this side of the Atlantic an

sketches possess such a human element

that even Mr. Abbey regrets that he can-

not give to his pictures the same subtle

Gilder to essay the writing of stories, and

uralist, who has devoted his life to a study

and pencil what he has learned from his

is the literary success of the year, and Mr.

Kipling, when he visits America, seeks him

ry encouragement from magazine editor

and publisher. As if to show how domi-nant is this feeling, a recent number of

Harper's Magazine was made up almost

exclusively of articles by professional art-

The Master Inventor.

A story will serve to throw new light

apon Edison's character. At one time there

that the deposits of platinum were about

to become extinct. Edison thereupon or-

ganized a correspondence bureau and sent

etters to every American consul upon the

globe, to British consuls in ports where

and to scientific men in every land. The

the United States had no representative.

letter gave a clear statement respecting

the metal, how and where it was found

and might be found, how it could be identi-

fled and treated, and much other informa-

platinum, as found in the various rockbeds.

but when it is remembered that the letters

postage was 10 cents to each letter, and

hat the pieces of platinum enclosed were

lmost as valuable as metallic gold, the

cost of the achievement is readily seen

While he did not succeed in greatly in-

creasing the output of platinum, he set at

earned the gratitude of every scientific in-

rest all fear of its extinction, and thus

CROP CONDITIONS, FOREIGN NEWS AND INERTIA THE CAUSES.

July Corn Hammered to Small Effect -Big Break in May-Wheat, Oats and Hog Products.

between 721/2072%c and 72%c and closed %c Bacon steady at \$5.12%. Whisky, distiflers' finished goods, firm on basis of \$1.28. Sugar firm. trade evened up deals in order to rest over Sunday with undisturbed minds, and then left the market to take care of itself. The drop in prices was due to weak cables, 69, or 1 point better than was shown 57@571/c; sample, 50%54c. by the April report, while advices from the Northwest were of excellent promise. Primary receipts were 337,000 bu, compared 333,000 last year. Minneapolis and Duluth reported 201 cars, against 213 last week and 315 a year ago. Local receipts M. B. WILSON, Fres.: O. M. PACKARD, V. P.: W. F. CHURCHMAN, Cash.; C. L. FARRELL, A. C | were 32 cars, none of contract grade. the decline of July was heavy selling by the man who has cornered May. He said the market needed a break and according;y disposed of 2,500,000 bu of July. In view of this and other selling the decline was very moderate. The opening was at 46% @46%c. The price was hammered down to 46c, where the pressure was greatly reduced, and the close was steady and %c lower, at 46%c. Following the opening spurt the trade was dull. May corn opened at 52% @53% c on the selling of only 50,000 bu by a scalping long. Phillips bid the market up to 541/2c and then | packed and cases included left it to itself, having got nothing for his pains. The close was 2½c down, at 53c. The Writer Who Is Also an Artist Receipts were 272 cars, 30 of contract grade. Oats were fairly active and firm. July was sold liberally, but fell into strong local hands. Prices ranged between 26%c and The collaboration of author and artist

ceipts were 229 cars. Provisions were affected by the liberal stockyards. Trade was dull and unimportant. July pork sold between \$15 and \$14.90, and closed 15c lower, at \$14.90; July lard closed a shade lower, at \$7.921/2@7.95, and July ribs 21/2c depressed, at \$7.90. Estimated receipts on Monday: Wheat, 47 cars; corn. 380 cars; oats, 210 cars; hogs,

23,000 head. Leading futures ranged as follows: Articles. meteor, and, through a genius displayed | Corn-7.87% Cash quotations were as follows: Flour dull

Exports, 1.716 cattle, 1,354 young woman is brought up that it is well

The receipts of hogs were not large and the quality was about as good as the average heretofore this week, but in keeping with a decided weakness in the trading everywhere the market opened with the bidding unevenly lower. A few transac-5c decline, but later the trading was practically at a standstill, and finally sales-men were forced to take off 742010c in prices to effect a clearance. Most dealers reported the average 71/2c below yesterday, and a good clearance was made on that basis, but the close was very weak with the last sales possibly 10c lower. Mixed hogs were reported largely at \$5.65 a5.70, and sales ranged from \$5.65@5.85. The receipts this week are 1,500 larger than last week, and there is a gain of over same period last year. The market pened with quite a drop in prices, and there was considerable fluctuation throughout the week. The movement, however, was the extreme close of the week the averlast week. The quality continues fairly prime heavy grades. Shipping orders have been rather limited and packers who are pended upon to take most of the supplies. The top price of the week was \$5.90 and the lowest top price was \$5.771/2. Quotations:

Good to choice medium and heavy.\$5.70@5.85 Good to choice light weights ..... 5.65@5.75 Common to fair light weights .... 5.60@5.65 Common to good pigs ...... 4.75@5.50

this year there is a gain of nearly 13,000 sheep at \$3.50. Quotations:

Above quotations are for clipped stock.

A Disagreement in Genesis, Making

week was too small to draw all buyers absence is apparent only, not real. They are the rule, and were maintained later in element has been obliterated. By far the local requirements and shippers have been | been rationalized almost beyond recogniunable to complete many of their orders, | tion from a polytheistic cosmogony into a Sales this week included spring lambs as monotheistic genesis. Even the oldest comhigh as \$8, wool lambs at \$5, clipped lambs | mentators of the Bible were aware of the at \$1.75, wool sheep at \$4.50, and clipped | fact that the Book of Genesis contains two stories of the creation which are plainly count of the reverence in which the final all day earning his \$20. second begins (Gen. ii. 4) with the words: "These are the generations of the heavens and of the earth | into a common purse, when they were created." Ezekiel (xxviii. 13-14) describes Eden in analogous but different terms as the mountain of God, full (?) and pipes (?) are wrought in gold. Like | rent of \$20 a mon Aralu of the Babylonians, it is supposed to tain of God, covered with "stones of fire." There is no need of dwelling on the difference in the two Genesis accounts, but it is obvious that the second story must have originated, or at least been worked out, in a country which was geographically different from the country of the author of the first story, the former being Mesopotamia and the latter Canaan. In the first account water is an element that is plentiful. There is a distinction between the waters above the firmament and those be-chaos of an inundation yields to a separation between the land and the waters, just as in the valley of the two rivers the country becomes inhabitable as soon as, under 4.50@ 5.00 | the influence of the sun, the dry land appears. In the second account, however, 3.75@ 4.60 | water, far from being a hostile element, is 3,00% 4.00 desert until a mist came, and the Lord God 4.25@ 4.75 caused the rain to fertilize the country.
